PRE ALGEBRA

Instructor: Dr. Kenneth Yu

Course: 210.03

Time: M-F   8:30am – 9:20am

Date: 9/25/2017 – 12/8/2017

                No Classes   11/10, 11/23,24

Class Room: G1

Final: WED   12/13/2017   7-9 am

Course Description:
Use of basic arithmetic in application problems, estimation, the real number system, variables and linear equations, graphs of linear equations and the Cartesian coordinate system, the concept of function.

Algebra in mathematics itself opens up learning opportunities in numerous fields, as mathematical problem solving skills are widely applicable.
Algebra/Mathematics provides the foundation for studying:

- engineering
- biological, physical and health sciences
- economics
- business
- computer science
- statistics
- many other fields

Grading: 100%

    Test 1:   15%

    Test 2:   15%

    Test3:   15%

    Home Work   20%

    Class Participation   5%

    Final: 40%
