

## ASTRONOMY 4

### **Solar System Astronomy** De Anza College Fall 2023

Instructor: Eric Peterson, Ph.D.

Email: [PetersonEric@fhda.edu](mailto:PetersonEric@fhda.edu)

Office Hours: Tuesday, 4:00 to 4:50 p.m. on Zoom

Textbook: <https://openstax.org/details/books/astronomy>

(Select your preferred option under the header: Get This Book.)

### **Introduction to Astronomy 4**

Astronomy 4 is an introductory-level course which concentrates on the planets of our solar system and what we have learned about them in the past 50 years of space exploration. The course has no prerequisites. However De Anza College does advise the following: *English Writing 1A* or *English as a Second Language 5*. The class is taught with the non-science major in mind.

### **Class Format**

I am trying to keep things simple. Each week I would like you to do the following:

1. Read the assigned reading for that week
2. Watch assigned PowerPoint lecture(s)
3. Watch assigned video(s)
4. Take a short quiz

The reading assignments are on the next page of the syllabus. In addition there will be a midterm exam during week six and a final exam the week of December 6.

### **Exams and Grades**

Your class grade will be based on weekly quizzes, a midterm exam, and a comprehensive final exam. All will be online through Canvas. The quizzes will constitute 50% of your grade; your two lowest quiz scores will be dropped. The midterm and the final will each be 25% of your grade. The questions will all be of the T/F or multiple choice variety.

## **Reading Assignments**

<b><u>Week of</u></b>	<b><u>Chapter</u></b>
1. September 25	1, 2.1-2.3
2. October 2	2.4, 3, 4.1-4.2, 4.5-4.7
3. October 9	5-6
4. October 16	15-16
5. October 23	7, 14.3-14.5, 21.3-21.6
6. October 30	8
7. November 6	9
8. November 13	10
9. November 20	11
10. November 27	12
11. December 4	13, 14.1-14.2
12. December 11	Final Exam

## **Student Learning Outcomes**

- \* Appraise the benefits to society of planetary research and exploration.
- \* Compare and contrast the development of planetary systems and of the major planet types, including those factors that have led to Earth's unique characteristics.
- \* Evaluate astronomical news items or theories concerning solar system astronomy based upon the scientific method.
