SLO Assessments	I/D/A	All	<p>Emphasize that eLumen is a tool supporting assessment. Rather than following eLumen’s naming of assessment within eLumen emphasize that it is a rubric to collect assessment data.</p> <p>Winter quarter work will begin with mapping course SLOs to ISLOs and to Program level SLOs. Meeting with each department to start this</p>

			<p>off would take the burden off of chairs but setting up so many meetings could be difficult to schedule. Thus, we will use a combination of a Workshop setting and presentations and work during regular department meetings. ASAM would be an excellent department to start with.</p> <p>Mae expressed interest that faculty could change SLO statements outside of a complete course revision. Accreditation Team of 2017 said "No" to our process to do this. Mary will check if the policy is the same. Of course, it would be fine if the SLOs on the COR were updated with an easier process than a complete revision.</p>
